

It is the policy of Global SCS to provide Customers with cost effective services including personnel, facilities, technology and methodology or equipment that are safe, environmentally sound, of a high quality, meet all statutory and legislative requirements and at a price that surpasses their expectations.

The Board of Directors shall ensure that there shall be no influence on the impartiality, independence and integrity of Global SCS.

Senior Management shall ensure that all training, assessments, verification, inspections and audits shall be carried out with the highest degree of professional integrity and technical competence and that all personnel shall be free from all pressures and inducements, particularly financial, which might influence their judgement.

Senior Management recognise their responsibility to ensure that personnel responsible for carrying out training, assessment, inspection, audit and verification activities have:

- **Appropriate technical and vocational competence and training**
- **Appropriate knowledge of the requirements of any activities they may carry out**
- **Adequate experience of such operations**
- **The ability required to draw up any certificates, records or reports necessary to demonstrate that training, assessments, verification, inspections activities have been carried out**

To ensure this, Quality Procedures Manuals have been developed and implemented. The system comprises policies and procedures designed to ensure that all Global SCS activities are suitably controlled.

The Global SCS Quality Management System is certificated to ISO 9001:2008 by DNV Certification Limited.

In pursuit of this policy, personnel will receive information and instruction necessary to actively participate in meeting all Global SCS objectives. Everyone within the organisation is required to co-operate fully in the implementation of this policy and in all measures put in place by Global SCS in order to achieve this policy.

In pursuit of this policy, annual measurable objectives are set and communicated by myself to all employees, against which we will continue to maintain the high standards of quality within our operations. We continually monitor our systems in place within our operations and assess and evaluate our performance. Employees will receive the information and instruction necessary to actively participate in the meeting of these objectives.

Everyone within the organisation is required to co-operate fully in the implementation of this policy and in all measures put in place by Global SCS in order to achieve this policy.

To achieve the commitment, support and involvement of all our personnel and those of any sub-contractors utilised, Global SCS will actively foster a culture of continuous improvement and open communication through the organisation.
