

Impartiality and Independence are the foundations for Global SCS's services. The overall aim of Global SCS's independent design review, verification and inspection services is to give confidence to all customers that the reviewed equipment fulfils the specified requirements.

The main purpose of this document is to demonstrate the commitment that Global SCS, its employees and the board undertake to manage impartiality. This document also describes mechanisms in place to safeguard and promote objectivity, independence, neutrality, fairness, open-mindedness, even-handedness, detachment, balance, freedom from conflict of interests, freedom from bias, and lack of prejudice and manage all its activities with complete freedom from any undue pressure.

Global SCS shall be responsible for the impartiality of all its activities and shall not allow commercial, financial or other pressures to compromise impartiality.

Global SCS shall identify risks to its impartiality on an ongoing basis and shall review the effect of its activities with regards to impartiality of all work scopes from the receipt of the enquiry through to completion of the planned work scope.

Global SCS's top management is committed to safeguard and protect impartiality in all activities. The commitment towards impartiality and the impartiality statements are declared publically in the company's website. Top Management review the activities of SCS and verifies that no conflicts exist due to any business relationships and is documented as part of the annual management review.

Global SCS shall not conduct work scopes or any activities for customers whereby the impartiality or independence or objectivity is threatened. Global SCS shall not engage in activities that may conflict its independence of judgement and integrity in relation to activities undertaken.
